**DID YOU KNOW
YOU CAN'T SEE,
SMELL, OR TASTE
RADON GAS?**

New Jersey Department of Environmental Protection
Radon Potential Map

For information in New Jersey, call (800) 648-0394 or go to WWW.NJRADON.ORG

Radon Information:

- Radon is a naturally occurring radioactive gas formed by the decay of uranium in rock, soil and water
- It can accumulate in the home
- Radon is the second leading cause of lung cancer
- Testing is easy
- The NJ Department of Environmental Protection recommends all NJ homeowners test for Radon
- If levels are elevated, homes can be mitigated to reduce radon levels
- In New Jersey, all radon testing and mitigation businesses and professionals must be certified

**SPONSORED BY PASSAIC COUNTY BOARD OF COUNTY COMMISSIONERS
PRESENTED BY PASSAIC COUNTY DEPARTMENT OF HEALTH SERVICES**

This program is funded by the NJ Department of Environmental Protection Radon Section.
